PROJECTS

E-Commerce Shopping Application	Jul 2026
https://shopping-time-react-e-commerce-shop.vercel.app/	
- Developed a responsive e-commerce web application using React.js with reusable and component-based architecture. - Integrated REST APIs using Axios to fetch and display dynamic product data. - Implemented product search and filtering functionality for better product discovery. - Built shopping cart functionality using React Context API for global cart state management. - Implemented React Router for navigation between Home, Products, Product Details, Contact and Cart pages. - Used useState, useEffect, useContext and custom hooks for state management, API handling and reusable logic. - Added Add to Cart / Remove from Cart functionality with dynamic cart updates. - Designed a responsive and user-friendly UI for different screen sizes. - Deployed the application online and maintained the source code using Git/GitHub.	

PERSONAL RESUME	Current
https://github.com/vidhya12032000?tab=repositories	
- Developed and deployed a personal resume website using HTML5, CSS3, and GitHub Pages to dynamically showcase professional profile, contact information, technical skills, and educational background, attracting potential employers and collaborators. - Implemented responsive design principles, ensuring optimal viewing experience across various devices and screen sizes. - Utilized Git for version control, managing code changes and collaborating effectively on project iterations. - Demonstrated proficiency in front-end development and deployment workflows, resulting in a professional and accessible online presence.	

FOOD PRODUCT FILTER
https://github.com/vidhya12032000?tab=repositories
- Developed a responsive food product filtering web application (HTML5, CSS3, JavaScript) to efficiently display and categorize food items. - Implemented dynamic filtering capabilities, enabling users to sort products by various categories and preferences.

- Utilized GitHub for version control and collaborative development, ensuring code integrity and streamlined project management.
- Designed a user-friendly interface to enhance product discoverability and improve the overall user experience.
